

## Digital Energy Challenge – Application Journey

This document describes the steps of the application process for both Challenge categories.

### 1. Fill out the Application Form online

Please ensure you complete the application form for the category you have chosen:

- ⇒ [Digital Energy Challenge Partnership: Application form](#)
- ⇒ [Digital Energy Challenge Tech Accelerator: Application form](#)

You can save your application at any time and return later to complete it.

*The information and documents needed to complete your application are specified on the application form.*

### 2. Generate a PDF version of your application form

After clicking on “Generate my PDF application”, you will receive by e-mail:

- the **PDF version** of your application form
- your 5-digit unique **application reference number**

### 3. Submit your full application on the Challenge platform

Please ensure you submit your full application (the application form and any other documents required) in the category you have chosen:

- ⇒ Submit Partnership application ([English version](#) or [French version](#))
- ⇒ Submit Tech Accelerator application ([English version](#) or [French version](#))

Before uploading your full application, please ensure you have:

- your **application reference number**
- the **PDF version** of your application form

Once you have submitted your application, you will receive a confirmation e-mail.

### 4. Next steps

After submitting your application, you can:

- Consult the [FAQ](#) (available in the Application Pack) which will be updated regularly
- Participate in the information webinar on 5th May 2026. Click [here](#) to register.
- Join the Challenge mailing list and ask any questions by contacting us [contact@afddigitalenergychallenge.com](mailto:contact@afddigitalenergychallenge.com)

You will be notified by email at the end of the pre-selection period in July whether your application has been pre-selected.
