

Call for Innovators: AWIS 2027 Innovation Marketplace Now Open!

Are you developing technologies, tools, platforms, or solutions that can help shape Africa's low-emission agricultural future?

The [Africa-wide AgriGHG Research & Innovation Symposium \(AWIS 2027\)](#) invites start-ups, researchers, innovators, agritech companies, development organisations, and private-sector leaders to participate in our **Innovation Marketplace Live Demonstrations**, taking place in **Johannesburg, South Africa, 3-5 March 2027**.

What is the Innovation Marketplace?

A dynamic showcase featuring:

- ✓ Rotating 7-minute innovation pitches
- ✓ Interactive live demonstrations
- ✓ Networking with researchers, policymakers, investors, development partners, and industry leaders
- ✓ Opportunities to build partnerships and scale innovations across Africa

Showcase Themes

-  Methane mitigation technologies
-  Digital MRV systems
-  Carbon accounting tools
-  Soil testing and nutrient efficiency
-  Remote sensing applications
-  Climate-smart advisory platforms
-  Low-emission dairy systems
-  Low-emission rice systems
-  Other breakthrough agricultural climate innovations

Who Should Apply?

We welcome applications from:

- Start-ups and entrepreneurs
- Universities and research institutions
- Agritech companies
- Climate technology providers
- Farmer organisations and cooperatives
- Development agencies
- NGOs and foundations
- Investors and venture partners
- Public-sector innovation programmes

This is your opportunity to showcase solutions that can accelerate agricultural transformation, improve resilience, reduce emissions, and strengthen food security across Africa.

Join Us

Whether you're developing the next generation of methane-reducing feed additives, digital climate services, carbon accounting tools, AI-powered advisory systems, or innovative soil health technologies, AWIS 2027 provides a continental platform to demonstrate your impact.

 Johannesburg, South Africa

 3-5 March 2027
